

## STI SOUNDER/STROBE STOPPER

Covers to protect sounder/strobe signal units against vandalism and environmental damage.

These virtually indestructible covers (slotted for sounder/strobe units and solid for strobe only units) are specifically designed to stop vandalism and accidental damage to signal units of fire alarm systems. Moulded in clear, thick UV stabilised polycarbonate material, they are backed by a lifetime guarantee against breakage in normal use. Slots in the STI 1210 allow the sounder or fire voice speaker to be heard. STI 1221 is for strobes only. With equally tough, clear spacers, they fit virtually all sounder/strobe devices available today.

## SPACERS FOR STROBE APPLICATIONS

There are a variety of spacers available to accommodate larger sounder/strobe units and retrofits – as well as weather resistance and surface mount applications. Spacer B has a solid back and is moulded with an integral mounting box. Spacer C has an open back for retrofit applications. Spacer D accommodates deeper units and applications with exposed conduit electrical connections. When not specified, units are supplied with Spacer E, a basic frame for flush mount applications. For extreme conditions where dampness, water or dust are frequently present, we recommend using STI's unique, new Enviro Kit.

## FEATURES

- Helps prevent accidental and intentional damage or vandalism
- Lifetime guarantee against breakage in normal use
- Easy access for service
- Weather proofing Enviro Kit available for extreme conditions
- Variety of spacers available to accommodate special applications
- UV stabilised against discolouration
- Polycarbonate tested -40°F (-40°C) to 120°F (49°C)
- 94V-2 flammability rating

## MODELS AVAILABLE

- STI 1210B** Sounder/Strobe Stopper with spacer type B
- STI 1210C** Sounder/Strobe Stopper with spacer type C
- STI 1210D** Sounder/Strobe Stopper with spacer type D
- STI 1210E** Sounder/Strobe Stopper with spacer type E
- STI 1221B** Strobe Stopper with spacer type B
- STI 1221C** Strobe Stopper with spacer type C
- STI 1221D** Strobe Stopper with spacer type D
- STI 1221E** Strobe Stopper with spacer type E

## ACCESSORIES

- SUB 121** Enviro Kit for D and E models
- SUB 122** Enviro Kit for B and C models
- STI 1283** Backplate (for D & E units)
- STI 06297D** D type spacer only
- STI 06297E** E type spacer only
